## PRODUCT PLATFORM

### TELEVISION

- *Ocean Black*, the original animated series, featuring Temeo Aemrose a.k.a. Tengoku Temeo. A post-apocalyptic samurai fighting on Earth and other planets becomes a great warrior, then mother, then revolutionary, then conqueror.
  - 3 seasons, 36 episodes
- *Ocean Black: Behind the Scenes*, the reality show on how the show was made and how the Ocean Black universe was first developed.
  - 1 seasons, 8-10 episodes

### BOOKS

- Ocean Black Volume 1 & 2, both currently published novels. Explains all the worlds of Ocean Black, from the very beginning, with a focus on specific characters that are connected to the entire web of the different stories, including that of Temeo Aemrose.
  - Volume 3 is on the way, with at least three more planned after that.
- *Ocean Black: Before Exile*, manga coming out soon. Focuses on the first major character in the history of Ocean Black, the demigod Dahlia Hermes a.k.a. Columbia.
  - Eight chapters are planned for Volume I of the manga series.

### GAMES

- *Last Khaz Island*, a single-player and co-op RPG designed and ready for development. Features an Atlantis-like civilization on a hidden alien planet, where aliens and humans live together in harmony, surrounded by a watery but alien ocean full of monsters, and a sky full of strange moons that change tides, and fates.
  - Planned as one game with DLC. Recommend Unreal 5 (or similar) to render realistic oceans, as well as realistic aliens that will be both friends and foes.
- Tabletop RPG based on the same stories and location as Last Khaz Island, using the same backend dice system that has been designed for the video, to allow players to do any kind of storytelling they want, just like Dungeons & Dragons-like games.

### MOVIES

- *Black Ships*, futuristic war movie about a pitched space battle at the center of *Ocean Black* Lore. Proposed script stars Gil Birmingham, Kristin Stewart, Dante Basco, and Patty Lee, in a major Napoleonic-like space opera.
- 138 years after the destruction of Earth, the six distrustful kingdoms of Ocean Black are forced to work together, due to the threat of a pirate fleet led by Sallah "the Wolf" Wulfgar (Stewart). Under the command of Admiral Maypiya "Pato" Iyapato (Birmingham), an allied fleet is assembled to take down the Wolf, with the secret help of the greatest warrior alive, Temeo Aemrose (Lee), and Pato's wingman, Tatanka "the Bull" Bellson (Basco).
